Abstract

Healers and intuitives talk about subtle energy. But what exactly is subtle energy and why has science not said much about it? This presentation discusses what is subtle energy from quantum information science and spiritual perspective. We will have exercises that demonstrates the reality of subtle energy. Join me as we play with and explore these consciousness expanding ideas.

Biography

Doug Matzke has a Ph.D. in quantum computing, has studied NLP for the last 5 years and has studied metaphysics topics for over 30 years. Doug creates an interesting synthesis of computation models of consciousness and spiritual ideas by using quantum science based arguments as a bridge to spirited science conclusions. He is an enthusiastic and thought provoking speaker.

Outline

Science of Subtle Energy
• What is Subtle Energy or Chi
• Chi and Measurement
• Experiencing Chi
• Chi Generators
• Double Blind Experiment
• Chi and Intelligence/Information
• Chi and Thoughts (Exercise)
• Chi and Quantum/space/time
• Expanding your Chi (Meditation)
• Questions and Discussion

What is Subtle Energy or Chi

- Chi is the life force
- Chi is like flowing water (not a lake or battery)
- Chi is free (no reason to stock pile or hoard)
- Chi is ubiquitous (everywhere in nature)
- Chi is not measurable (not classical energy)
- Chi is informative (not energetic)
- Chi is connective (non-local in space and time)
Chi Science History

- Thousands of years old in Eastern countries
  - Basis of medical, military and spiritual world views
- Acupuncture surgery in west only in 1960s
- Systems: acupuncture meridians, chakras, Iching
- Imprinting in water: succussion, vortex
- Awareness: dowsing, medical intuition, RV
- Effects: Reiki, energy balancing, REG PK
- Modern research laboratories (Pear, IONS, Sony, etc)

Structure of Chi ‘Field’

Non-classical Quantum Field

Quantum Cloud: Representation of high dimensions projected into 3 dimensions

Limits & Classical Information

- Speed of Light
- Uncertainty
- Observability
- Determinism
- Density
- Black holes
- Relativity and Gravity
- Consistency and Conservation
- Undecidable and NP completeness
- Locality based on number of dimensions
- Dimensional projection/embedding
- Observer Frame(s) as computation perspective

Chi and Science

• Scientists can generate Chi
  – Chi generators
  – Chi amplifiers
  – Vortexes and succussion
  – Acupuncture regulates Chi
  – Hands on Healing

• Scientists can **not** measure Chi
  – Only humans can sense Chi
  – No cameras, nor devices
  – Limited by model of Chi
Experiences of Chi

• Subconscious
• Chill, tingling, hair raising
• See auras, colors, geometric patterns, emotions
• Direct knowing: thoughts, telepathy, parlor game
• Scale/distance: occult chemistry-anu, RV
• Outside time: in the zone, clock medit, precognit
• Intent: copper wall, healing, effects electronics
• What are your experiences?

Chi Generators Using Light

- Computer controlled modulated light source
- Modulated ions using noble gases in miniature bulbs
- Audio band frequencies – primitive frequency/shapes
- Human subjects for validating pattern effects
- Hundreds of patterns or “programs” possible
Chi Tapes and Speakers

- Magnetic Tape is carrier
- No apparent pattern on tape
- Sampled data distorts (CDs)
- Audio/Speaker EM is carrier
- Soundless (remove paper cones)
- Geometric patterns emerge

Experiencing Chi Tapes

my first hand accounts with tapes

• Major responses
  – No awareness at all
  – Mild tingling or fleeting thoughts
  – Strong and unsettling
  – Extreme sensitivity and knowledge of energy patterns

• Experiences with playing tapes
  – “Just don’t aim it directly at me!!”
  – Health fair overdose
  – Three-five minute exposure effects felt for hours (or days)

• Experiences with holding tapes
  – Blue Light Special
  – Electromagnetic sensitive

• Chi Master calls generated pattern “Master Chi”

Play a tape: both sides
Double Blind Experiment

- Premise that tapes contain pattern: *unplayed*
- Blind randomize/seal target and two controls
- Experience or connect with tape pattern
- Write impressions, reason & score (#1, #2, #3)
- Judges will tally results of ranking
- Open sealed containers and reveal contents
- Discussion of impressions
Chi and Intelligence/Information

• More like information than energy
  – Contains meaning and thoughts
  – Information is related to energy/mass

• Subtle energy is a misnomer so:
  – Prana, Mana, Ki, Chi, etc
  – Subtle information
  – Intelligent energy
  – Chi is my preferred name

Information is Physical

Black Hole event horizon (inside is a singularity with no space nor time)

Quantum Information is consistent with Black Hole Mechanics

Wheeler’s “It from Bit”

M → E → Info

Bits as entropy (Planck's areas on surface)
Example of Orbs
What are Thoughts

- Thoughts are quantum Things! (not classical things)
- Thoughts are both affect/effect
- Are both/neither states/actions
- Related to structure/topology (Anu and Rotes)
- Thought bubble as quantum field
- Spreads outside physical body
- Awareness, attention, intention
- Knowing, understanding, meaning
- Memory forms emotional state dependent locality
- Remember/access thoughts from anywhen

DJM 1/20/2011
Representation of Thoughts

Random Points: correlithms

Thoughts and Meaning

- Human meaning inside mind but project “out there”
- Meaning are locations in hyperspace (focus levels)
- Content addressable memories
- Common sense local relationships
- Understanding
- Knowing
- Meaning
- Abstraction and Archetypes
- Akashic records
- Telepathy based on some universal meaning
- Animal/plant/nature communication
- Unconscious optimization and Gestalt answers
Chi and Thoughts (Exercise)

• Group Exercise (10 per group):
  – Volunteer with back towards audience
  – Rest connect with intent to that person
  – Rest of group then reports thoughts about person
Chi and Quantum/space/time

• Your choice of model understanding: (massless)
  – Point/address in set of dimensions: easy to see
  – Include collections of dimensions: allows void

• No distance metrics
  – Coefficient/address is not classical distance
  – Semantics relationships are metrics of distinction

• Primitive change without time
  – Changes of state without any universal clock
  – State changes represents complexity increase

• Related metrics (no velocity, energy, mass, etc)
  – Computing without energy (all infor in right location and form).
  – Ordering increases complexity (No entropy or negative entropy)

Quantum Mind Model

Thoughts are made of the strands of source

- State space is outside of 4D spacetime
- Very high dimensional state space
- Randomness is key resource
- Quantum style orthogonal states
- Probabilistic state combination
- CDMA style computational framework
- Dimensional increase due to superposition/entanglement
- Semantic relations exist & can be constructed
- Brain/mind mapping using phase invariance (patent)

Expanding your Chi (Meditation)

Guided meditation to open all your chakras in a group setting.

At end try Energy Combing

DJM 1/20/2011
Chi in Your Daily Life

• Chi is generated by normal things
  – Florescent lights
  – Plucking/banging musical instruments
  – Clapping
  – Vibration and sounds
  – Thoughts

• Grounding
  – Keeping chakras open (positive thoughts)
  – “Let it be” tree
  – Getting Cleared (Self clearing, QCS, Reiki etc)
